CORE SKILLS

Core

- Product Design
- Design Systems
- UI Architecture
- Design-Development Integration

Technology

- Figma
- HTML5 / SCSS / JavaScript
- Design Tokens / Style Dictionary
- Git / GitHub
- WCAG / Accessibility

Additional Skills

- AI-assisted development
- Interactive Storytelling
- Blender / 3D

EXPERIENCE

Senior Product Designer · Design Systems & Front-End

Prensa Ibérica - Jul 2023 – Present · Madrid, Spain

- Designed and evolved 42DS, a multi-brand Design System supporting high-traffic digital publishing products.
- Architected components and Design Tokens, connecting Figma → JSON → Style Dictionary → front-end implementation.
- Designed and implemented end-to-end solutions, from Figma concepts to functional prototypes using HTML, SCSS and JavaScript.
- Integrated WCAG 2.1 AA accessibility standards, responsive design and performance principles across editorial components and patterns.
- Evolved CSS/SCSS architecture and reusable components to improve scalability and consistency while reducing technical debt.
- Collaborated cross-functionally with Product, Engineering, business stakeholders and editorial teams throughout definition, validation and implementation.

UI/UX Designer

Plexus Tech - Feb 2023 – Jun 2023 · Madrid, Spain

- Designed and implemented responsive interfaces with a focus on performance.
- Developed reusable components and scalable SCSS architecture.
- Contributed to functional and product decisions across multidisciplinary teams.

UI/UX Designer & Front-End (Design Systems)

Aliseda - Dec 2021 – Feb 2023 · Madrid, Spain

- Created Brickee, an internal reusable component system bridging design and front-end implementation.
- Defined scalable SCSS architecture and reusable responsive patterns.
- Collaborated with business and technology teams on the evolution of digital interfaces and products.

Senior UI/UX Designer & Front-End Developer

France Telecom Spain - Apr 2012 – Dec 2021 · Madrid, Spain

- Designed and evolved web and mobile interfaces for high-traffic digital products.
- Developed front-end solutions using HTML, CSS and JavaScript across CMS-driven and complex enterprise environments.
- Collaborated across UX, business and technology teams to improve user experience and conversion.

Digital Designer & Front-End (HTML/CSS)

Buleboo Estudio - Jan 2007 – May 2011 · Madrid, Spain

- Designed digital experiences and developed front-end solutions using HTML, CSS, JavaScript and jQuery.
- Delivered digital projects for clients including Vodafone and Barceló Viajes.

EDUCATION

BA in Information Sciences

Complutense University of Madrid (UCM) - 1998 – 2003 · Madrid, Spain

Advanced Diploma in Graphic Design

Escuela Arteneo - 2005 – 2006 · Madrid, Spain
